Kitchen

PLATO

With Italian fashion style, the cabinets contains yearning romance, which engraves Italian elegance in thier bones, and perfectly shows Italian interpretation of fashion.

Closet

PLATO

The living room presents a delicate Italian lifestyle, with simple and clear overall space, fashion and luxury.

Living Room

Bedroom

PLATO

In the design of the bedroom, the collocation of color, light source and lines is carefully considered. The large area of wood grain color gives the bedroom more warm temperament. The internal structure of wardrobes on both sides is planned reasonably to meet different storage needs.

Kitchen

Living Room

THE ORIGIN

Following the principle of "Less is more", The Origin -- use the crisp lines of nature with simple and bright new modern decorative elements, restores the essence of life, and creates a leisurely and carefree living space in urban city.

Closet

Bedroom

Bedroom

The Origin closet integrates practicality, functionality and decoration, and has a fashionable personality, which makes full use of every corner. It is an ideal closet for everyone.

Kitchen

55° GREY

Combined with rigor and romance, this design takes black, white and grey as main colors, noble and profound, and incorporate German toughness and resolute industrial style. Although simple and extreme, it embodies a charming male hormone, which caters to rational and courageous business elites, and interprets a typical metropolitan life style.

Living Room

The whole living room presents a mysterious, cold and fashionable atmosphere. The ferrous metal frame shows the unique industrial style, which makes all the exhibits in the living room appear in good order.

Closet

55° GREY

Kitchen

LOVE IN CITY

The kitchen island is not only beautiful and generous, but also integrates many functions such as cooking table, storage table and invisible dining table, and incorporates the flip socket, which plays an important role in the kitchen.

Living Room

Closet

Bedroom

With the design of lockers and desks, the living room is divided into two areas and a "home office" is added, which improves the utilization rate of space.

URBAN NOBLE

Simple design, fashion and classicality are embodied at the same time.

Multi-functional space design achieves a tidiness and beautiful experience.
